News reaches relatives here that Mrs. Tyler Chandler, who was Miss H. Sandusky's. Nettie Winfrey before her marriage, a resident of Hillsboro, Texas, is lying in a very critical condition. She is a victim of a cancer, and her affliction developed many months ago. Sine was born, reared and married in this place. Her parents were I. C. and Matilda Winfrey, who have been dead many years.

Daniel Banker Hunter, who has been a supernumary about Columbia for quite a number of years, has accepted a position with a Banker, of Lebanon, and left last week for his post of duty. He was the handy man at the First National Bank and The Adair County News, this place, for many months. In looks he is inviting and in taste fastidious, and is very much sought after by the giris of his race. The inducement that caused him to leave Columbia is not known to us, but we presume he is to receive quite an advance in salary. He is noticeably religious, member of the colored church choir and sings beautifully. He is humble in his walk and was never known to use ugly language, and makes it a point to be on hand at meal time, and if the victuals are dainty, he guarantees to slt at the festival board until he his well-filled.

Married in Lincoln County.

Miss Mary Breeding, of this place, daughter of Mr. and Mrs. J. S. Breeding, who was on a visit to Lincoln county, was married last Monday week at McKinney, to Mr. P. R. C. Bridgewater, who is a son of Mr. Wijson Bridgewater, and who lives at New Market. It was a very quiet affair, the ceremony being performed by Eld. M. R. Gabbert, of the Christian Church.

The bride is quite popular with the younger set of this place, and her mar-

riage was a great surprise. The groom is a young business man of New Market, Ky. His father was born and reared at Cane Valley, Adair county.

The News extends its best wishes, trusting that only happiness will result from this union.

Death of a Former Resident.

Old friends in Columbia of Mrs. E. A. Suddarth, formerly of this place. but for the past many years of Fort Worth, Texas, will be grieved to learn of her death on Monday, July 2nd, at the home of her sister, Mrs. C. C. Leonard, 900 Florence street, Fort Worth.

Mrs. Suddarth was the wldow of the late J. W. Suddarth, of Columbia. and a daughter of the late Jesse Murrell, of Fort Worth, head of a wellknown Columbia family, who moved to Texas some thirty years ago, and with whom she made her home after leaving Kentucky. Surviving Mrs. Suddarth are four children, Evan W. Suddarth, Master Signal Electrican of the Mounted Service school, at Fort Riley, Kansas; Walter E. Suddarth, U. S. Postoffice Inspector, stationed at Chilllcothe, Mo.; Mrs. Mary W. Davidson, of Denton, Texas, and John G. Suddarth, of Chicago, Iii. Four sisters and a brother, Mrs. C. C. Leonard, Mrs. Lou E. McDaniel, Misses Mary and Ellen Murreli and Luther Murrell, also survive Mrs. Suddarth. Another sister, Mrs. Rill Rogers, formerly well-known in Columbia, where she spent her young womanhood, dled at Christmas tlme at the Fort Worth home of the family.

The deceased leaves a great many relatives in Adalr county. She was an ardent member of the Methodist Church, and when in health was a regular attendant upon services.

Announcement.

To the Voters of Russell County: I promise, if elected, to carry out the following plan for the benefit of

the prisoners and taxpayers. 1. I shall dispense with the Deputy allowed the Jaller and do, or have all the work done, at my expense. This wiii save the Taxpayers \$1.00 per day. I shall at my own expense oversee the work of the prisoners on the public

highways. 2. I promise to give one-tenth of my official income to the various churches in Russell county to be used by them in paying off the indebtedness on church property. In this each denomination (both white and colored) is to share alike in proportion to the amount of indebtedness against them. One representative from each denomination will be asked to help form a committee to assist in the fair and proper distribution of said fund. In case all such church indebtedness shall have been lifted the remaining portion of this fund is to be used on

the public highways of Russell county.

3. Inasmuch as the county prison is designed to be a house of correction and reform in which all inmates should be given special inducement to proper reflection, and encouraged in every way to set firmer resolutions to live peaceabie and law-abiding lives as cltizens of the Commonwealth, it shall be my plan, if elected, to encourage such thought and resolution among the prisoners by supplying them, at my expense, with Bibles and Hymnbooks and other religious and good secular literature, and in addition to this I propose to secure the services of some minister of the Gospel for at .

least one service on each Sabbath day. The above will be incorporated in my official bond and will be as faithfully and fully carried out in every detail as any other requirement of

said bond.

To Help Solve Transportation Problem.

The absolute necessity of build ing good roads even in these times of war, in order to meet the transportation situation, has been repeatedly emphasized by the Manufacturers Record. Whatever interests it may be necessary to let up on in war times, the country cannot afford to let up on the building of good roads and good streets. To do so would be as great a mistake as it would be to entirely discontinue all railroad expansion or the increase of cars and locomotives. The great pressing problem before the nation from the viewpoint of the producer and the consumer of foojstuffs and of manufactured products, and of the army and navy also, is that of transportation, or distribution.

Twenty years ago or more Senator Gorman, in discussing the future of the country, pointed out that distribution was the good roads. great problem before the Amer- The Department of Commerce weather.

erated that the building of good portation and use of motor truck roads and the use of motor truck road facilities of the country. by. Good roads construction with all we have needed it in the past.

Railroads of necessity are cutting out many passenger trains. They are unable to haul the and hampered by inadequate railroad facilities. This is true even now when we have scarcely begun to get ready for war. It will grow with more intensity this can be done, and the fullest utilization of automobiles and motor trucks, though water transportation also must be utilized wherever possible.

The automobile is not any longer a pleasure vehicle when looked at from this standpoint. It is a necessity, vital to the life of the country and to the maintenance of its business operations. Under present conditions it is impossible to increase our railroad facilities rapidly enough to overcome existing conditions, nor can we increase railor ten years rapidly enough to keep up with the demands of the times. We can, however, materially supplement railroad work and help to relieve the congestion by building good roads, solid and substantial enough to stand the heaviest traffic that can be put upon them, and by the fullest utilization of the automobile and the motor truck.

It becomes essentially important, therefore, that towns and counties and states shall fully recognize this situation and see to the building of good roads as rapidly as they can be built, with a full understanding of the fact that this is a war necessity and needed more to-day than in times of peace. The automobile and the motor truck must do practically all the short hauling of passengers and freight, en abling the railroads to a large extent to cut out short hauls on passenger and freight trains alike. More than that, however, the long hauls must be taken care of to some extent by the automobile and the motor truck, and this can not be done without

Preserve What You Can.

Preserve as many products in your garden as you can, dry, evaporate, pickle or brine. By the drying method, all of the surplus water is driven off by placing the products on trays in the sun, over a stove, or before an electric fan. Dried fruits and vegetables can be kept in bags and boxes tight enough to exclude insects. Soaking in water will bring the products back to a large extent to their briginal state, and they may be cooked like fresh products.

There may be a shortage of cans and glass jars, but all kinds of receptacles can be utllized. Put fruit juices in ordinary bottles, sealing with a cork and paraffine. Preserved or jammed frults or berries can be put in glasses, and sealed with parassine, or in wide. necked bottles, if the cans and jars are not readily obtainable.

Dry such vegetables as sweet corn, snap and string beans, shelled beans, sheil peas and the root crops. If you have plenty of cans or jars all of the above named vegetables can be canned. Do not have an empty container in

your home next fall. Do your part to prevent food waste.

Latest War News.

In the sensational campaign which the revolutionary army of Russla is waging in Galicia the capture of Ha llez, important though it is, is only an incidental feature. Given secure pos session of it the Russians have the road to Lemberg well opened up to them and a continuation of their ar tacks on anything like the scale of the last ten days seems likely to result in the fall of the Galician capital at no distant date.

Russian official statement reveals clearly that the Russians besides men acing Lemberg, also are carrying out a movement embodylng serious threa! to the Austro-German front running south through the Carpathlans to the Moldavian mountain region.

The advance by the Russian armies no the Borgorodchan-Zolotvin front represents a drive into the Carpathian. foothills. Zolotvin (or Solotvina) is twenty-two miles southwest of Stanislau and the front of the advance mentioned, running northwest to Bor gorodchan, is twelve miles in length Zolotvin is a bare twenty mlies from the crest of the Carpathians along the Gallcian-Hungarian border. The avallable passes, however, lie chlefly some distance either west or southeast of this line.
